Perry Ellis International's focus on innovation spawned Opti-Series, six fabric innovations that appreciably optimize the comfort and performance of Callaway apparel.

With capabilities that range from providing UPF protection to transferring moisture away from your skin, Opti-Series is another attribute that elevates Callaway over the competition.

Callaway®

Opti-Series Technology

opti·series

---

opti·shield™

Opti-Shield technology creates a layer of protection from the sun's harmful rays.

opti·dri™

Opti-Dri technology transfers moisture away from the body to aid in evaporation.

opti·stretch™

Opti-Stretch fabrics feature interwoven layers of spandex to ensure maximum range of motion so the garment moves with the golf swing.

opti·vent™

Opti-Vent fabrics allow the garment to have maximum breathability.

opti·repel™

Opti-Repel garments resist wind and water, creating a barrier of protection against inclement weather.

opti·therm™

Opti-Therm fabrics are designed to withstand the cold and provide a layer of thermal comfort.

PEI's state-of-the-art embroidery center allows us to execute jobs quickly, as well as with unparalleled precision and quality.

We have SWF embroidery machines that can sew 1,000 stitches per minute and have enough memory to hold 100 designs.

So if you're in the market for fast, hassle-free embroidery work, PEI has you covered.

State-of-the-Art Embroidery

ABOVE: Perry Ellis International's new embroidery technology includes software capable of memorizing scores of designs, facilitating fast, high-quality turnarounds.

RIGHT: In-house embroidery service includes a retail fold in a custom-made poly bag and Callaway embellished tissue paper.
