

Item#: 64272621280

Description :

Description:

ERC Soft is our longest golf ball with soft feel, and it's built for increased control around the green. This complete performance ball suits a wide range of player types and swing speeds, especially low-to-mid handicap golfers, with a Hyper Elastic SoftFast Core that increases ball speed off the driver while enhancing feel. This softer, lower compression core is paired with a GRIP Urethane Coating System that provides even more greenside spin. And our popular, Tour-proven Triple Track alignment helps you choose the right line for better putting accuracy in the best ERC Soft ever.

Features & Benefits:

- More Ball Speed and Soft Feel from our Hyper Elastic SoftFast Core. Optimized for faster driver ball speed, with a softer core for enhanced feel on greenside shots.
• Hybrid Cover Provides Exceptional Feel, Control and Spin + Long Distance The cover is significantly softer, which allows us to create a versatile, multi-material construction. We've combined maximized distance from high launch and low spin, with soft feel and durability.
• GRIP Urethane Coating for increased Greenside Spin This coating system features high-elongation paint for increased control on approach shots and short game shots.
• High Speed Mantle for Enhanced Ball Speed and Control Creates more efficient energy transfer between the layers for more ball speed and provides more wedge spin around the green.
• Advanced Alignment From Triple Track Technology We've prominently featured our popular Triple Track lines on ERC Soft to help you focus and find the right alignment for every putt.

ERC Triple Track markings are PMS Red 186 & Blue 286
