**Description :**

**Description:**

The Velocity golf ball is high speed and longer distance tee to green with durability.

At the heart of the updated design is the new cover that boosts ball speed and lowers spin, giving golfers exactly what they want off the tee: maximum distance.

The last version of Velocity was one of the highest-flying golf balls out there, so in the spirit of gaining every yard possible, we refined the dimple pattern with a new 350 octahedral design. The result? A lower, more piercing peak height that adds rollout and ultimately more distance.
